192 responses

No suggestions

Nothing

None

Good

-

No suggestions

No suggestion

The teacher give assignments at the last moment And put pressure on the students.

To complete portion on time.

Teachers should be friendly with students

no suggestion

Hard copies of notes should be providedd

No comments

Pleas...when ull teach give us the notes...pdf in watsapp group..! Everyone dont use android phone in class

Teachers to give required notes chapter wise

Giving real life examples to understand the concepts better

The teachers should communicate properly with the students and not use harsh words which hurts the students at time.

TEACH SLOWLY

There should be More of using digital function for learning purpose

Economics should be explained in a better way. He doesn't explain properly.

teachers need to use exxamples of daily life

The teachers can slow down a bit

more discussions should be done on how marks are allotted for internals and semester's

All teachers a really good in thr sub

Give more time for revision before exam

Apart from toppers, teacher's should also motivate and encourage other students.

Overall teaching in our institution is extremely good. There is no such weak areas about to tell.

Entire BCA department is given step motherly treatment in the institution.

Classrooms are needed to be properly mainted. Some classes have moist, cracked walls.

DBMS- notes should be provided once each chapter is completed and not all together at the last moment.

Good, some of them are needed take little more initiative in good study material and students

All good

...

More use of ICT tools

Teaching methods are to good But little more effort should be put

M.com level teachers a very good.

Teacher's should discuss the exam portion properly because they set paper's which are not told to study

Nothing

Systems should be operated property in the lab

I love the teaching of all the teacher's in this institution.

More sensible practical work

'principles & practices of insurance' subject, an NCFM module should be made an open-book test. it makes absolutely no sense to by-heart those complex terms and conditions of insurances and jot them down on the paper.

Should need to explain in simple language so the students can understand better

I would like to suggest to make one compulsory formal dress code.

Giving ppt or notes in advance before the exams starts or it's confusing what we have to learn.

The completion of syllabus should be done 25 days or 30 days before exam

Friendly communication

no suggestion

The teachers show great concern and responsibility towards their students in every possible terms.

Explaining method should be change

Do not give such assignment which we cant understand

More soft copies should be provided

Teacher should help us to understand the concept in better ways

Teachers should be more cooperative to students

Explaining matter in more simple language.

Our lectures last for one hour each, so I want breaks of 5 minutes every 15-20 minutes, because it becomes very hard for me to understand what the teacher is teaching.

There should be more examples in the topic which teacher is teaching

Practical subjects like accounting teachers who can communicate well should be appointed

ALL TEACHERS ARE VERY SUPPORTIVE.

Institution should focus more on practical education rather than theory

Better ventilation in classroom

Change the teacher

More interactive with student

no suggestions

They should try or at least guide/inform about internships properly. No offence teachers.

Teaching In Detail

More experienced teachers are required rather than the freshly joined teachers

Efforts should be made to make a class work together so classmates get to interact with each other and know each other well which will promote class unity

-

--

In my opinion I feel that the college is set up in the wrong place as it is close to railway tracks and every time a train passes it makes too much of noise due to honking but the train should honk as many people pass by as it is Margao city but the noise creates lot of disturbance while the teachers are teaching.

I hv No suggestions

A

Conduct extra class if somebody miss important lecture during event participation

Firstly, the environment in which the college is situated is slightly disturbing due to the whistling of the trains.

A summary shuld b done after each chapter

Teaching through video visuals

Make it more interesting as lectures get boring at times

More case study should be taken

Should be more interactive

The canteen should be made bigger because it isn't sufficient for all as there are many courses so many individuals

Nothing to improve because they teach very well

i would suggest the institute to focus more on videos rather den power point presentations.

atleast one lecture per week allocated for library

Teacher's should chsnge their sttitude towards the students

Teachers have been using the concept of switch learning. It should be done, but sometimes and not always

There should be more practical work given to do.

Once you share your problems with the mentor about a particular tr . The mentor goes and tells the tr then in the next lacture the teacher gets angry

Practical workshops should be conducted more than just talks by guest lecturers

Gg

Proper Teaching

Provide us with good institution for better internship experience

Exposure to practical learning

Need for better Internet connection (speed)

Learn more than curriculum requires .

Try to improve student communication skill

Maintenance of projectors and screens should be looked often

Teaching style is good of most of the teachers but some teacher need to improve their traching style

They should teach the concept properly so that we could understand the meaning of the concept

OTHER (71)

192 responses

No suggestions

-

Nothing

.

None

No suggestions

Overall teaching is good

The BCA dept teachers should be changed.

Nil

To draft portion on notice board

nothing

Teachers should not be unfair to students

no suggestion

Notes should be given on time

They should do more practicals instead of textbooks

Improve pc and laptops in computer lab

Lectures must be conducted maximum 45minutes

Field trips

The teachers should take all d students as 1 and not do partiality between each other.

RUSHING WITH PORTION

very good

Maintenance of electronic devices which are kept for students as there are many devices which we are not able to have access

If the lecture is of 1 hour, then they should compulsorily give us (students) an interval of half an hour and not 15mins.

teachers should not only relia on vedios shown but also explain the topic by themselves

Economics teacher should be more careful

mentoring should be conducted regularly without skipping any classes

Everything is well, My institution is working at it's best

Help student's to learn soft skills

Field trips should be conducted atleast twice during a semester.

I would rather suggest to make one formal compulsory dress coat .

New recruited teachers need to be replaced with previous batch.

The technology and the wifi connection should be of a high range or network.

The way it is 🐼.. it too good

OOC

.

Flawlessly running well...

All good

...

Encouragement to perform in extra curricular activities

None

Homework for practical subjects should be avoided

When we are told to give presentation teacher sits behind and talks and later makes us repeat

Nothing

Internet must be available

Teacher's are very positive and encouraging

Something out of the box

:)

Make sure that d lecture is nt boring n students understand the concept

Teachers should make clear what the students should learn and not learn.

NVP sir should be a bit faster in teaching and should teach shortly and effectively

Positive thinking

Improvement in explanations methods

no suggestion

The teachers encourage us to interact and build our personality.

Practical teaching

Teachers should give regularly notes which students can understand not out of syllbus

Points should be explained in ppts

The communication skills of some teachers are very poor

Students should be given life skill talks only on topics which they study for and not for unrelated topics

Teaching should be done with example so it can be easily understood

All the classrooms should be checked every week, to make sure that all of the appliances like fans,lights, projectors are working properly m

The teacher must help the student when he is not under standing

Clean infrastructure special wall will help to constrate

ALL TEACHERS TREAT STUDENTS EQUALLY.

satisfactory

Marks should be given based on the matter that is written rather than the length of the answer

Latest technology to be provided

Some teacher don't try to understand student problem

Explanation should be with examples

Institutions or infact whole Goa University should focus on making each subject have it's practicals compulsorily.

Explaining A Little Slower

Practical subjects must be added more to the syllabus

There should be more activities where the students get a chance to speak in front of a crowd, it will help the students to be more confident in front of people.

-

Explain with more examples

I also feel the college should install A/c's in every class if possible or increase the length of the fan's as they are set up at a height from where we don't feel the air at all because it's very high and it becomes difficult for us to sit in the class because of the heat except in rainy season.

No suggestions

B

Secondly, there is no proper ventilation. It would be more convenient if AC's were installed or atleast extend the length of the fans. It's pretty hot.

Extra curricular activities shuld give marks 4 participants

Providing a review of previous learned things

Shouldn't teach of 1hr continuesly

Fun activities should be done

should use more teaching techniques

The break time should increase

Most of the teachers skills are good and freshers teachers are little slow to understand

Less of learning and more of experiencing the behaviour of people.

conduct more field trips

They should ask students what their difficulty is

Combining of classes has led to a bigger class with low concentration, divided divisions were better

Teachers should finish the portion before a week or two of exams.

No suggestion

??

Important notes and requirements should be given quite prior to exams

Ddf

Good Understanding

Wifi facility should be more appropriate and flexible

Student teacher interaction sessions

Better Infrastructure

Write and learn

OTHER (71)

c)

192 responses

-

.

None

Nothing

No suggestions

No suggestions

Nil

No suggestion

The teachers stay absent and keep the lab as and when they want.. They even extend it till 3.30 without informing the students.

No comments

nothing

Teaching should be improved

no suggestion

Vast portion should be covered earlier

They should encourage the students to get knowledge.

Please improve

Teacher could be more friendly

Videos

The teachers must improve their teaching skills as I myself don't understand at all what DBMS sir teaches the class.

OVERALL IS VERY GOOD

Best

Teacher staff is very interactive and helpful having great learning and developing experience

Notes should be given on time .

institute may provide for more lifeskill lectures

Rest everything is good

absent messages should bot be sent to parents

Tr. Are really helpful n understands us really well

Have an interactive class more often

Trainings should be conducted in college for future job interviews.

I feel there is no need of any alterations .

No much opportunities given to BCAs aa compared to the BCOM department.

The roads to the college are in a very bad condition.

Best college in margao

it has been a good experience in the college.

.

Nothing much...

All good

...

Performance in assignments should be discussed

M.com Lab should update and get computers because the existing ones dont work.

Being in staff room and not engaging lectures

Nothing

Projector should be repaired

Overall I find this college to be one of the best colleges, and it has improved a lot in their teaching style and the rules are followed strictly for the students during the exam's, and college is we'll maintained

Sensible assignment

;))

No response

There is no other need to change teaching way.

Look for learning and not teaching also give small breaks during continuous lectures.

Present of mind

No suggestion

no suggestion

Overall the college is a rgood place to be at.

Asking students about their problems and make then understand

Notes should be given on regular basis after completion of each chapter and questions bank..

Notes should be provided fully

Teacher should encourage students to take active part in the class

Teachers should encourage more in understanding the matter rather than just passing the subject

Showing vedio on subject matter

There should be holidays on weekends.

Teacher should encourage student again

teacher also try to use boards not only the projectors

ALL TEACHERS ARE ALWAYS READY TO HELP STUDENTS.

teachers can improve on presentation

Institution/ teachers should come up with interesting ways of teaching so that the students understand better as the students have to sit for one hour listening to the lecture which they find boring and difficult to grasp. Moreover, the institution should stress more on practical education like, teaching students how to conduct a meeting in a practical manner, skill development workshop, how to conduct a business,etc and marks should be given based on how well we perform those activities.

Quality notes n not quantity

Nothing more

In the end of the lecture teacher should ask the students to give the summary of what she has tought in the class

no suggestions

Institutions should give us choices in CS & NCS electives regardless of whether teacher is available in institution or not but if not available then they should give the contact of that teacher for which I chose subject from CS & NCS electives.

Proper Pronunciation Of Some Words

No more complaints

Assignments should be more interesting and from which we can learn something new

-

Show some video clips so that we can understand it more better

Finally the infrastructure should be improved as in rainy season the rain water keep on dripping in class and in the corridor and the furniture the desk's and the benches should be changed in some classes as we are uncomfortable to sit in some classes and the boys washroom should be made good as it not so good and clean as girls washroom because girls washroom is newly built .

C

And lastly, the roofs should be improved as there are leaks during the monsoons in the classrooms and corridors. It gets quite disturbing and distracts every student.

Classes should be reduced to 45mins per sub. as the students get exhausted after 45 mins

Usage of laptops for noting down ppts

Teacher should prepare ppt in more interesting manner

Assignment should be interesting

Should make class more practical

The portion for the isa should be marked properly or sent on the group by the teachers.

Everything is going good in my institution

The children should focus more on other activities rather than sitting in the 4 walls of a classroom learning everytime in fact every month for the isa's which puts so much pressure on the students.

conduct events within department or college for more practical knowledge

They should listen to the students when they are stating or giving their opinion

For a 15 marks ISA, a lot of portion is kept to study for the same

The projector in the classroom doesn't work properly. It needs to be fixed.

We are provided with the best out of available

??

Career guidance and other courses should be conducted in the initial years and not in the final year

Vv

Always encouraging

Take an effort to get individually connected to all students for better solution and to overcome individual students problems

Evaluation after every chapter

Need to update/upgrade website

Teach minimum.

Encourage students to sit with others student or to talk with others
